ULTRA COMPACT PERFORMANCE POND LIGHT

Spa Electrics' range of ultra-compact, high performance LED lights are now available as Pond & Feature Lights!

Designed and manufactured in Australia, our designers and engineers have utilised over 35 years of experience in underwater lighting to develop this state of the art Pond & Feature Light.

So why are ATOM-EM lights the most advanced, high performance and energy efficient lights on the market?

Australian patent pending

bright

High-intensity single & multi-colour LEDs provide ample illumination for even the largest water features.

reliable

Advanced LED technology and IPX8 water ingress protection means ATOM-EM Series lights will work reliably year after year.

energy efficient

Superior LEDs and Spa Electrics' patented DUOSINK® and PULSEWAVE® technologies deliver maximum brightness with the lowest power consumption on the market today.

exquisite colour

In both single colour & multi-colour options. Multi-colour provides brilliant colours & seamless transitions between colours.

versatile

Wall and floor mounts provided, to suit any underwater project.
